

## ■ ITO FILM ( INDIUM TIN OXIDE COATED PET)

- Optically brilliant, clear appearance
- Higher modulus and excellent tensile strength
- Excellent dielectric properties
- Good flatness and coefficient of friction (COF)
- Tear-resistant and puncture-resistant characteristics
- Excellent dimensional stability over a wide range of temperatures
- Very good resistance to most common solvents, moisture, oil, and grease.

### SPECIFICATION

Item	Unit	Criteria	Test Method
Thickness	mm	188±10%	Micrometer
Hardness	H	≥3	Pencil hardness tester
MD Shrinkage	%	≤1.0	150°C ,60min $[(X_o-X)/X_o]*100\%$ (Sample size 360*406mm)
TD Shrinkage	%	≤1.0	
Heating Curl	mm	≤10	150°C ,30min (Sample size 360*406mm)
